Course Description
The general objective of the course is to provide students with an understanding of basic demographic measures and the social and economic dimensions of population change. This course will enable students to learn and understand the various demographic measures of the different aspects of human population such as fertility, migration, mortality, etc. Specifically, at the end of the course, students will be able to (1) calculate and interpret the basic measures often encountered in demographic literature, (2) construct and interpret charts and tables related to population characteristics, (3) describe the main demographic events and the processes that shape human population in general, and (4) explain current U.S. and the world population patterns and trends.

We will briefly examine the importance of Demography and how it relates to other sciences. Then we will discuss the demographic variables (fertility, mortality, and migration), and look at each of the variables and how it impacts society. We will also examine changing family structures and its impact on society as well as aging related issues. We will conclude with debates over population and sustainability. These goals will be achieved through reading assignments of articles and textbook, population handbook, and videos that are intended to illustrate various aspects of particular issues under consideration.

Learning Objectives
At the end of the course, students will be able to:

1. understand the importance of demography
2. see the interrelationships between demography and other sciences
3. know the demographic variables and their impact on human population
4. understand and explain demographic events
5. calculate and interpret basic measures in demography literature
6. construct and interpret charts and tables related to population characteristics.
7. explain current US and world population patterns and trends.

COURSE REQUIREMENTS

Readings and Assignments: Students are expected to do all assigned readings for each week and be prepared to share their views on the different issues raised in the readings.

1. Quizzes: (20 points—EXTRA CREDIT OPPORTUNITY). There will be NO make-up quizzes. A quiz will be given for every module, starting SEPT 7, 2016. Questions will be drawn from materials covered (population handbook, textbook, articles, videos, etc.). The quiz will be posted for 72 hours. However, you will have between 10 and 25 minutes to take the quiz (depending on the number of questions) once you begin. Also, you will have only ONE attempt. The quizzes will turn on from Wednesdays (6:00 pm) to Saturdays (6:00 pm). You must complete the quiz during this time.

   Successful completion of these assignments satisfy learning modules 1-7.
2. **Video Evaluations: (100 points total)**—Four videos will be shown in this class. The purpose is to provide students with an opportunity to think about and comment on particular issue(s) that is/are being covered. You are required to submit a one-page typed-written (font size =12) double-spaced reaction paper of the video.

**General guidelines for all the video evaluations**

While you’re viewing a video, think about and write down the following:

- a. What are the most important points or ideas in the video?
- b. What significance do these ideas have for a course of this nature?
- c. Write a brief response to at least one major issue discussed. Use your sociological imagination here. Make sure you integrate relevant concepts and theories that you learn in the textbook, videos, notes, etc. to substantiate your views.
- d. Do you think the video is relevant to the class topic under discussion (here you state if the video presents anything to illustrate or explain a point raised in the text or in class discussion? Did the video make you look at anything differently?) If you think the video is not relevant to the topic, feel free to say so but you must be certain to explain your position.
- e. Did you find anything problematic?

Video 1—**Monday, Sept 19 (6:00 pm) to Thursday, Sept 22 (6:00 pm)**—See Assignments tab

Video 2—**Monday, Oct 10 (6:00 pm) to Thursday, Oct 13 (6:00 pm)**—See Assignments tab

In your discussions, be as detailed as possible. Refrain from short answers like “I agree”, “yes, this is true”, etc. Please make sure you explain why you agree or think the posting is good or true. Whatever you say, make sure you explain why you think the way you do. What I will be looking for in the postings is how well students integrate concepts and theories learned in the text into their discussions. **Show off your Sociological Imagination!!!** Students will have **Fridays from 6:00 pm to Mondays 6:00 pm** to post and reply to two of their group members’ posts. After 6:00 pm on Mondays, you will NOT be ABLE to post your answer to the discussion question. **NOTE:** You have to post your answer for the discussion question(s) FIRST before you see the posts of your classmates.

90%-100% -- Very detailed answer. Answer/post has an extensive use of relevant textbook material—concepts and theories.

80%-89% -- Detailed answer. Answer/post contains a high level of use of textbook material—concepts and theories.

70%-79% -- Moderate answer. Answer/post has a moderate use of relevant textbook material—concepts and theories

Important Notice for F-1 Students taking Distance Education Courses:
Federal Regulation

The paragraph reads:

(G) For F–1 students enrolled in classes for credit or classroom hours, no more than the equivalent of one class or three credits per session, term, semester, trimester, or quarter may be counted toward the full course of study requirement if the class is taken on-line or through distance education and does not require the student's physical attendance for classes, examination or other purposes integral to completion of the class. An on-line or distance education course is a course that is offered principally through the use of television, audio, or computer transmission including open broadcast, closed circuit, cable, microwave, or satellite, audio conferencing, or computer conferencing. If the F–1 student's course of study is in a language study program, no on-line or distance education classes may be considered to count toward a student's full course of study requirement.

University of North Texas Compliance

To comply with immigration regulations, an F-1 visa holder within the United States may need to engage in an on-campus experiential component for this course. This component (which must be approved in advance by the instructor) can include activities such as taking an on-campus exam, participating in an on-campus lecture or lab activity, or other on-campus experience integral to the completion of this course.
If such an on-campus activity is required, it is the student’s responsibility to do the following:

(1) Submit a written request to the instructor for an on-campus experiential component within one week of the start of the course.

(2) Ensure that the activity on campus takes place and the instructor documents it in writing with a notice sent to the International Student and Scholar Services Office. ISSS has a form available that you may use for this purpose.

Because the decision may have serious immigration consequences, if an F-1 student is unsure about his or her need to participate in an on-campus experiential component for this course, s/he should contact the UNT International Student and Scholar Services Office (telephone 940-565-2195 or email internationaladvising@unt.edu) to get clarification before the one-week deadline.
