Objective:
Your internship should be used to gain valuable work experience and increase your knowledge in the field of your major. You must seek a position that matches your major. Especially in a firm or industry where you have an interest in possible permanent employment and where you will gain desired competencies.

You may not receive internship credit for a current job or position unless you:
1. Coordinate a special project or research something new that totals to a minimum of 240 hours OR
2. Obtain a temporary reassignment of duties for the 240 required hours.

Depending on the time of year your effort may take some time…start early!

Frequently Asked Questions:
• **Will UNT find an internship for me?**
  – No. UNT will assist finding a position but the ultimate responsibility to find a position is up to the student.
  – The UNT Career Center is but one avenue for finding a job.
  – The exercise of finding and interviewing for a job is a part of the experience learned for the internship requirement. Experience in finding and interviewing for internships will help when it comes time to find a career position. YOU must take an active role in the search effort.

• **What if the position is not paid?**
  – Only paid internships are allowed.

• **What happens if I do not find an internship?**
  – Students who have not done an internship should contact Mr. Grimaldo, directly, to discuss alternatives because this can cause graduation to be postponed.

• **I already have a job. Can I use it to fulfill the internship requirement?**
  – This is acceptable only if your set of tasks are different from your regular tasks such as a special project or task force. Burden of proof is on the student. Simply fulfilling your regular duties do not count.

• **Who is responsible for creating the learning objectives?**
  – The student is responsible for generating the learning objectives and then reviewing them with their supervisor. We want you to help ensure this will be a learning experience that will be beneficial to you and to know what your tasks will be before you start.

• **My internship employer wants me to start immediately?**
  – An internship can start at any time. You will simply register for the following semester.

• **What if I haven’t completed the 240 hours before the end of the semester?**
  – We recognize internships can start at any time. If the semester ends before you complete your internship obligations you will be awarded an incomplete (I) for the semester. The paper must be submitted no later than the end of dead week in order to receive a grade for that semester.

• **May I take more than one internship?**
  – Yes, but only one (1) may count for credit.

• **How much does the typical internship pay?**
  – Mean pay is $12.62 and median pay is $12.00.
  – You may find that you are paid on a weekly, monthly, or annual rate. All data has been adjusted to an hourly rate.

• **Will my internship lead to a career position?**
  – Approximately 75% of logistics internships result in career job offers. Approximately 45% of the students accept. Think of this as a “low risk” trial run for the employer and the employee.
- Where have past students completed their internship?
