About the Professor / Instructor
Dr. Swan’s has a Ph.D. in sociology is from Northwestern University
(1981). He has been a Professor of Applied Gerontology at the University
of North Texas since 2004. His major research area has been long-term care
finance and policy but has in recent years developed research in physical
activity & aging. His career has been in applied areas: doing health services
research, and teaching in health administration, public health, and
gerontology programs. Professionally, he has oriented to public health, long
being active in the Aging and Public Health Section of the American Public
Health Association (APHA) and served several years as one of that section’s
APHA Governing Councilors. In Texas, he has been active in the Texas
Public Health Association (TPHA), currently as its President, on its
executive board, governing council, and conference-planning committee.
Dr. Swan has maintained a steady and active publication record for three
decades, and annually presents at the APHA conference and other
conferences. Dr. Swan’s teaching interests have especially focused on
research, social policy in aging, health and aging, and aging services. He
has a strong commitment to global aging (and has taught courses in Mexico
and Nigeria).

Syllabus and Timeline Change Policy
All important information for this course should be able to be found either in
this Syllabus or the accompanying Timeline (found at the end of the
syllabus). Therefore, most questions about this course and the guidelines
should be able to be answered with these two documents. The University
attorney advises faculty members to notify students that the syllabus and
timeline used for this course are not contracts and are therefore subject to
change. The goal is to adhere to the schedules provided, but it is important to
note that changes may be necessary to meet unforeseen needs and events.
Announcements will be sent to let everyone know of any changes.
**Course Pre-requisites** There is no pre-requisite course or instructor permission needed for this course.

**How the Course is Organized**
Relevant information is located on the home page. This course is structured with weekly lectures from the instructor plus weekly reading assignments from the required textbook and weekly required and recommended additional readings. Testing is via midterm. Students are required to do a term paper plus make an additional short paper presentation.

**What Should Students Do First?**
Students should first complete the Zip Code Survey located on the course home page then carefully read the syllabus regarding course requirements and assignments and note the timeline and particular assignment and exam
due dates. Students are asked to make introductions by posting to other students their greetings on the discussion board. Any questions or queries may be directed to the instructor using the course email system.

**How Students Should Proceed Each Week for Class Activities**

All weekly instructor lectures are in a folder off the home page as are the weekly required and recommended additional readings. Students should submit all assignments by their due dates. Specific instructions regarding preparing and submitting assignments are given below.

**Student Support**

The University of North Texas provides student technical support in the use of Blackboard and supported resources. The student help desk may be reached at:

**Description**

Analysis of the aging experience in a global context, historically and currently. Topics include perceptions of aging, definition of need in old age, and models for delivering health and social services to older persons. *Satisfies the Social Sciences requirement of the University Core Curriculum.*

**Expected Outcomes**

Upon completion of the course, the student should be able to:

1. Describe issues of the diversity of culture and family contexts of aging in the world.

2. Relate issues of private and public policies and programs for aging in the world.

3. Delineate major theories applicable to the social context of aging in a diverse world.

4. Outline differences in aging and in response to aging across various nations.
5. Think critically about political and cultural contexts around the world in responding to the needs of older persons.

6. Communicate regarding issues in lifestyle, needs, access to care, and service delivery relating to elders in different countries.

7. Understand the importance of issues of diversity as they relate to the world’s aged populations.

8. Discuss social science empirical methods used to produce findings reported in the class.

**TEXT**

There are additional readings, which will be made available, mostly through the course website.

**Course Format**

This is an online class. The instructor will present perspectives on weekly topics, but interaction will occur via the discussion board on the class website. Each student will also prepare periodic assignments.

**Course Requirements and Grading Criteria**

The course requirements and grading criteria are: % of Grade

1. Midterm Exam – two weeks to respond 30%
2. Term Paper -- (see below) 35%
3. Short Paper 10%
4. Discussion Board 25%

**Exam**: An essay test will cover both materials in required readings and anything I discuss in lecture. The exam will be posted on the web site, two weeks before the due date. E-mail responses to the address listed in this syllabus (swan@unt.edu), **NOT** to the Learn e-mail address.

**Term paper**: A term paper (8 to 10 pages) will be required, covering a topic from the class, and related to the literature and to theory, descriptions, and other materials from the class. A **topic statement** is due by September 19; an outline by October 10; a **tentative bibliography** (at least 8 entries) by October 31, and the paper by December 4. Please submit in Microsoft Word, **double spaced**. Please include your last name in the filename. Statements of fact, data, and opinion of others must be supported by citations, in one of two forms: 1) in-text, with author and year in parentheses; or 2) numbered citations in order of appearance, with corresponding numbering in the references. Exact restatement of another's work is quotation, should be indicated and cited (in-text citations of quotes include page numbers of the quotes). Overenthusiastic quotation without
attribution (plagiarism) is grounds at least for severe reduction in grade. Cite sources of assertions that are not either: (1) your own opinion, or (2) widely-known or common-sense knowledge (if in doubt, cite). Proper citation of sources does enter into the grade. A reference section at the end should list only sources cited. Tables from other sources or from others' data should have citations on the table and be listed in the reference section. At least some sources should be from the peer-reviewed literature: at least 5 such sources for graduate students, at least 3 for undergraduates. Web citations are fine, but be prepared to defend the validity of the source; provide the URL, and note when you last accessed the site. Citations of books are fine, but note that most books are not peer-reviewed literature. The textbook is not an acceptable source. Other documents, particularly organizational documents, are acceptable. Citations of interviews you have conducted are also acceptable. The paper will be graded on the quality of your sources (including adequacy of references provided), the organization and the overall quality.

Short Paper: In lieu of student presentations that would be required in the classroom, students are to submit a short paper (2-4 pages), covering a topic from the class. Follow the rules for the term paper in regards to citations and sources; but the textbook CAN be used as a source in the short papers.

Discussion Board: Topics will be posted to the class web site’s discussion board, generally per class session. You are responsible for participating in discussions. You can start your own threads under each topic.
