Class meetings Tuesday-Thursday 11:30 AM-12:50 PM in B-242

Description:

Prerequisites:
- Consent of the instructor

Instructor
Miguel F. Acevedo, Regents Professor Electrical Engineering (EE) Dept, Geography Dept. and Institute of Applied Sciences (IAS). Office Discovery Park B-260, Phone 940-891-6701, acevedo@unt.edu

Teaching Assistant
Ibrahim Hasir, Graduate Student, IbrahimHasir@my.unt.edu Office DP B245 Office Hours T & Th 10:00 AM-11:00 AM, W 2-5 PM

Format:
- Lectures
- Computer based exercises
- Field work exercises
- Assignments: weekly homework.
- Online resources: Through UNT ecampus Blackboard Vista https://ecampus.unt.edu

Grade:
- For EENG 4340: 60% graded assignments and 40% two exams.
- EENG 5340: 55% graded assignments, 30% two exams and 15% a paper
- Attendance is required and will be monitored.

Exams
- Exam 1 (Midterm)
- Exam 2 (non-comprehensive Final)
- Papers due for graduate students

Textbooks:
- Required: No textbook required.

Class Evaluation by Students
The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT and is available for your input at the end of the semester.

Topics:
1. Principles of Monitoring
   a. Why monitoring? short-term vs long-term
   b. Earth systems, ecosystems, environmental systems
   c. Ground based, airborne and spaceborne platforms
2. Sensors
   a. Principles of circuits and electronics
   b. Sensor technology, operation principles, calibration, and maintenance
   c. Data acquisition systems, data loggers, sensor networks
   d. Telemetry, Radio waves, transmission, reception, antennas
   e. Wireless communications and networks
3. Power sources and storage
   a. Solar cells, optimizing power
   b. Power quality
   c. Batteries, super capacitors, charging
   d. Energy harvesting
4. Atmosphere – radiation
   a. Solar radiation, Electromagnetic Spectrum
   b. Absorption, reflection, scattering
   c. UV and ozone
   d. Fiber Optics, spectrometers
   e. Measurement from airborne and spaceborne platforms
5. Atmosphere–air quality
   a. Aerosols and particulate matter
   b. Gases, Ozone, NO2, CO2
6. Atmosphere –Weather
   a. Temperature
   b. Rain
   c. Relative Humidity
   d. Wind velocity and direction
   e. Evapotranspiration
7. Hydrology and hydrodynamics
   a. Soil moisture
b. Water velocity
c. Water flow, discharge
d. Water level and depth
8. Water quality and aquatic ecosystems
   a. pH, chlorophyll, conductivity, turbidity
   b. Fluorometers
   c. DO and BOD
   d. Productivity and respiration
9. Terrestrial Ecosystems
   a. Productivity
   b. Gas exchange
   c. Tree growth, dendrometers
   d. Leaf area
10. Biomonitoring
    a. Ecotoxicology
    b. Organism response to stress
    c. Organism selection
11. Databases
    a. Database design and implementation
    b. Long-term monitoring
    c. Metadata, standards, data interoperability
    d. Ecoinformatics and hydroinformatics
    e. Data sharing and preservation
    f. Web interface, content management
12. Applications
    a. Environmental observatories
    b. Policy and decision making
    c. Education and public outreach
    d. Analysis and modeling
Policies

Grades: All grades for the course will be final. No extra credit assignments or work will be considered after the final grade has been recorded.

Accommodations: The EE Department in cooperation with the Office of Disability Accommodation complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities. Please present your written accommodation request before the 12th class day.

Academic Dishonesty: Students caught cheating, plagiarizing, or any other academic dishonesty will be subject to penalty according to the new Policy on Students Standards on Academic Integrity. See full policy at http://www.unt.edu/policy/UNT_Policy/volume3/18_1_16.pdf

According to this policy the categories of academic dishonesty are:

A. Cheating. The use of unauthorized assistance in an academic exercise, including but not limited to:
   a. use of any unauthorized assistance to take exams, tests, quizzes or other assessments;
   b. dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems or carrying out other assignments;
   c. acquisition, without permission, of tests, notes or other academic materials belonging to a faculty or staff member of the University;
   d. dual submission of a paper or project, or re-submission of a paper or project to a different class without express permission from the instructor;
   e. any other act designed to give a student an unfair advantage on an academic assignment.

B. Plagiarism. Use of another’s thoughts or words without proper attribution in any academic exercise, regardless of the student’s intent, including but not limited to:
   a. the knowing or negligent use by paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgement or citation.
   b. the knowing or negligent unacknowledged use of materials prepared by another person or by an agency engaged in selling term papers or other academic materials.

C. Forgery. Altering a score, grade or official academic university record or forging the signature of an instructor or other student.

D. Fabrication. Falsifying or inventing any information, data or research as part of an academic exercise.

E. Facilitating Academic Dishonesty. Helping or assisting another in the commission of academic dishonesty.

F. Sabotage. Acting to prevent others from completing their work or willfully disrupting the academic work of others.
