EENG 2610.001 - Circuit Analysis
Summer 2018

Instructor: Colleen Bailey PhD, NTDP B252, Colleen.Bailey@unt.edu

Office Hours:  T 1:00 PM to 3:00 PM or by appointment

Lecture: MW 9:00 AM to 10:50 AM; NTDP B217

TA: Veena Chidurala, Office Hours TBD, veenachidurala@my.unt.edu
Kelvin Darden, Office Hours TBD, kelvindarden@my.unt.edu

Prerequisite: MATH 1720 Calculus II

Co-requisite: PHYS 2220/PHYS 2240 Electricity and Magnetism

Course Description: Introduction to electrical elements, sources and interconnects, Ohm’s law, Kirchoff’s law, superposition and Thevenin’s theorems are introduced. The resistive circuit, Op-Amp, RL, RC circuits, Sinusoidal analysis.

Textbook: (required)

Course Outline: (tentative)

  Topic 1 ................ Introduction to Circuit Concepts and Components
  Topic 2 ................................. Circuit Laws
  Topic 3 ................................. Circuit Analysis Methods
  Topic 4 ................................. Operational Amplifiers
  Topic 5 ................................. Inductors and Capacitors
  Topic 6 ................................. 1st Order RL and RC Circuits
  Topic 7 ................................. 2nd Order RLC Circuits
  Topic 8 ................................. Sinusoidal Steady-State Analysis
  Topic 9 ................................. Steady-State Power Analysis
  Topic 10 ................................ Additional Topics

Grading:
Homework 30%
Quizzes 40%
Final Exam 30%

Final Exam Date: Friday, August 10, 9:00 AM

Course Objective: To understand and analyze basic RLC and op-amp circuits.

Canvas: Course material and grades will be maintained on the course Canvas site. You should check this page often to keep current on important information. https://unt.instructure.com
Course Policies:

- Homework is due at the beginning of class. Homework turned in after class will be penalized 50%. No homework accepted after 24 hours.

- No make up quizzes or exams will be offered unless prearranged with the instructor for a university approved absence.

- You have one week to contest any grade once returned.

Rights and Responsibilities:

- Students are expected to communicate to the instructor any issue regarding their performance in class ahead of time.

- Attendance is required and will be recorded each class. Students aware of an authorized absence (religious observance, military service, official university function, etc.) should notify the instructor as soon as possible according to UNT Policy 15.2.5.

- Students with disabilities should inform the instructor of their needs at the beginning of the semester according to UNT Policy 18.1.14 in order to receive proper attention and accommodations.

- Cheating and academic dishonesty will not be tolerated. Any student found to have participated in academic dishonesty will receive an F in the class, and may be subject to further disciplinary action. Acts of academic dishonesty include: academic fraud (e.g. changing solutions to appeal a grade), copying or allowing one’s work to be copied, fabrication/falsification, plagiarism, sabotage of others’ work, substitution (e.g. taking an exam for someone else). For more details, see UNT Policy 18.1.16.

- Letter grades will not be assigned until the end of the term, after the final exam has been graded. Any letter grade assignment posted before the end of the class should be regarded as tentative and subject to change.
