Intermedia Performance ART

Center for Experimental Music and Intermedia [CEMI]
UNT - Division of Composition Studies

Professor: David Stout
Office Location: Music 345 / 347
Office Phone: (940) 369-5127

Office Hours: Tues. 10:00-11:00 am / Thurs. 10:00-11:00am
Class Times: Tues. 2:00-4:50 pm
David’s Email: interartspark@gmail.com

COURSE DESCRIPTION AND OBJECTIVES:
This course is an inter-departmental laboratory for the creation of collaborative intermedia performance & installation work(s). Students will participate in think-tank discussions, performance presentations and critiques, complete a variety of production and organizational tasks, and immerse themselves in the creative realization of mid-term and final inter-media production project(s). A greater emphasis will be placed on collaborative process and compositional methods as opposed to technical training in hardware or software applications. It is not assumed that all class members are equally versed in the specific techniques of interactive video, VR, electronics, web design, dance improvisation, instrumental performance, music composition, clothing design, stage design and/or physical construction, however, students should share an interest in collaborative works that mix mediums, disciplines and technical modalities. Students are encouraged to share technical information through outside class activities including self-organized lab groups, software workshops and other creative activities. Various sub-groups will be formed including a MAX/MSP/Jitter programming group.

The final project presentation will take form as a public event staged in the Merrill Ellis Intermedia Theater [MEIT]. Large scale events of this nature demand that students work well under stress, meet strict deadlines, be active and supporting collaborators, demonstrate flexible creative thinking, and show a strong sense of commitment (i.e. enjoy long tedious logistical meetings, attend all required rehearsals, participate in strenuous construction chores, late night hacking sessions, marathon video editing, publicity schemes, and other often less glamorous activities). The course includes a particularly demanding schedule between March 19 - April 16 (just after Spring-Break thru performance day), which requires students to carefully consider and plan for other course demands and personal priorities in advance.

CLASS BLOG < www.facebook.com/groups/907658539412995 >

GRADING CRITERIA:
The collaborative nature of the course defies easy attempts to apply an across the board breakdown of assignments with specific grade percentages attached. Students who receive an A grade in this course will have worked long hours to achieve a successful implementation of their chosen project(s), role(s) and position(s). The successful project will be completed on deadline with a minimum number of glitches and a maximum number of “successful collaborations”. Each participant is expected to assist with at least one producing/pre-producing chore or one running crew position. In addition all participants are required to attend load-in, setup installation, assigned rehearsals and performance/presentation nights. Each student should provide a written documentation (journal) for inclusion in a final web/catalogue that details and reflects on their project or participation.
• **Attendance** is important; arrive to class and committee meetings on time or risk being counted absent! Each unexcused absence will result in a 5 point reduction in your total grade. Excused absences will be considered valid only in cases of dire emergency.

• **Deadlines** are firm. Late assignments and/or production tasks will not be given full credit. It will be common for the instructor-director to request changes or fine-tuning of finished work or works in progress, deadlines for re-doing all or any portion of a previous assignment will be reasonable. This includes weekly reading assignments.

• A grade of **Incomplete** can be granted in rare situations, however, in the context of this class with most credit related to participation in every facet of the final project it is highly unlikely any incomplete grades will be warranted.

**GRADING BREAKDOWN:**

15% Participation = Attendance / Discussion / Collaboration / Grad Tasks  
10% Individual Presentation (15 mins)  
20% Intermedia Project phase 1 – midterm (includes project proposal)  
25% Intermedia Project phase 2 – final (includes project proposal)  
20% Final Documentation – written, photo, video, final web design  
10% Reading Response Papers & Journal

**RE: GRADUATES STUDENTS:** As an expansion of the requirements listed above, graduate students enrolled in the 5590 section are expected to create projects of appropriately significant scope and depth. This may include additional written or theoretical components, more detailed and challenging performance projects and/or other approaches initiated by the individual student. Each graduate student will also be assigned an individualized task relative to the larger final performance project – these tasks may include a mini-research presentation, technical workshop, overseeing undergrad team or ensemble, etc.

**CHALLENGING CONTENT:**

Because of the provocative nature of much contemporary art, some materials presented in this course may be offensive to some people. These materials may include language, nudity, radical political and/or religious viewpoints. Please address any concerns with the instructor.

**CHEATING AND ACADEMIC DISHONESTY:**

1) Academic dishonesty - cheating. The term “cheating” includes, but is not limited to:
(a) use of any unauthorized assistance in taking quizzes, tests, or examinations;
(b) dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments;
(c) the acquisition, without permission, of tests, notes or other academic material belonging to a faculty or staff member of the university;
(d) dual submission of a paper or project, or resubmission of a paper or project to a different class without express permission from the instructor(s).
(e) any other act designed to give a student an unfair advantage.

2) Academic dishonesty – plagiarism. The term “plagiarism” includes, but is not limited to:
(a) the knowing or negligent use by paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgement and
(b) the knowing or negligent unacknowledged use of materials prepared by another person or by an agency engaged in the selling of term papers or other academic materials.

It is the policy of the University of North Texas not to discriminate on the basis of sex, race, color, religion, national origin, age, disabled veteran status, veteran of the Vietnam era, or qualifying disability under the Americans with Disabilities Act (ADA) in its programs, activities, admissions, or employment policies. Individuals qualifying under the Americans with Disabilities Act (ADA) who need special assistance to participate in a program, service or activity sponsored by the University Union are asked to contact the Verde Scheduling Office, a minimum of three business days in advance of when they will need the requested assistance to allow time for the request to be handled in an appropriate manner. The Verde Scheduling Office is located on the level 2 of the University Union. Telephone: (940) 565-3804, 565-3806 or TDD access through Relay Texas 1-800-735-2989.
