CHEM 3451 Quantitative Analysis

Spring 2016

Course Description: CHEM 3451 (Quantitative Analysis, QA) introduces students to the theory and practice of the quantitative aspects of the basic analytical chemistry. Topics to be discussed in lecture include solution preparation, statistical analysis, equilibrium calculations, titration analysis, electrochemistry, spectrophotometry, and introductory instrumental analysis. (Quant. Lab. CHEM 3452 is a separate course)

(Notice: CHEM 3451 requires extensive calculations based on chemical equilibriums)

Course Objectives:
- Introduce QA as a measurement science that bridges wide range of scientific disciplines.
- Enhance understanding of statistical terminology and its QA applications.
- Provide practices of volumetric and gravimetric analysis.
- Introduce modern instrumental analysis.

Class Schedule: Tuesday/Thursday, 4:00-5:20 PM.
Chem 109

Office Hours: (Tuesday & Thursday, 2:30 – 3:30 PM) (or by arrangements if need extra help.)

Exams: Three terms exams will be held on Tuesdays of Feb. 23, March 29, and April 29 (100 points each). Please plan accordingly. The lowest test score will be dropped for final grade provided you take ALL three exams and receive >50% on EVERY exam.
Final exam (100 points) will be comprehensive (Finals: May 10: 1:30 PM to 3:30 PM).

Please note: If UNT is closed on the test date, then the test will be moved to the next class date that UNT is open.

Missing Exam: Plan your schedule accordingly. If you must miss an exam, permission (with proper documentation) must be obtained in advance. Medical absence requires proper doctor’s statement.
**Homework:** Working the problems is very important to achieve better understanding of materials taught and good grade in the class. A copy of the solution manual with detailed answers to the problems is reserved in the science library (UNT Willis Library at 1FL Library Services Desk -GRW 06239). Note: the solution manual is not errors free. Homework (hand written or typed but not photocopied pages, show details of your work) is due week from completing a chapter. Late submission is highly discouraged and will result in partial credit.
