COURSE INFORMATION

Catalogue Description EDLE 6110

This course is a focus on data analysis and program evaluation from a policy perspective for district leadership. More succinctly, this course is a contemporary inquiry into the use of data analysis in educational leadership; examining student and teacher assessment and measures of student growth. This course examines the impact of positivism, subjectivism, and functionalism and their critics regarding recent research of the school organization and administration. Prerequisite(s): consent of instructor

Course Description

This course is designed to study the leadership role in the use of data in an educational setting. This course provides a structure for the locating, analyzing, understanding, and effectively utilizing data in a school setting. Additionally, school leaders will directly explore the role of data analysis to increase the leaders understanding of data found in school research. Participants in this course will participate in hands-on activities designed to increase the students understanding of the elements of statistical data found in the school environment.

- This course has been designed to contain online pedagogy with traditional components and will include both synchronous and asynchronous activities in the course.
- Weekly online sessions will be devoted to discussing assigned readings and completing weekly assignments.
- PowerPoint presentations and relevant videos will help summarize the material and
are available each week in the course.

- Journal articles provide additional perspectives and are discussed in our weekly discussions to highlight a particular data element or activity.
- Students will select a relevant research topic and will be responsible for using the university research libraries to locate materials and to provide an article summary for at least 5 of the articles that will be used in the final research paper.
- This course requires a research paper dedicated to a problem of practice and covering the selected research topic that will be due at the end of the course. Students will present their research to the class through a digital presentation posted in the course.
- Additional individual or collaborative assignments will allow students to apply aspects of the data analysis tools and structures presented in the course.
- The instructor is available to meet online by appointment throughout the course.

COURSE ASSIGNMENTS AND ASSESSMENTS

- (0 points) Introduce yourself in the Student Lounge. This is an ungraded assignment, but very important to get to know each other and share a few personal bits of information about who we are, where we work, and what we do. You might also share some personal information about yourself, your family, your pets, your favorite summer vacation, but we want you to feel comfortable sharing as we all get to know each other in the course.

- (25 points) Choose a Research Topic. In Week 1 of the course you will select a research topic or problem of practice that you would like to explore during the course. You will develop one to three research questions to explore in your research paper assignment. Write a short paragraph about the topic or problem of practice that you would like to explore during this course, and then develop 1-3 measurable research questions about the topic. The topic will be due in Week 1 of the course, and the final paper will be due in Week 10.

- (25 points) Descriptive Statistics Worksheet – In Week 2, you will complete a worksheet of examples of basic statistics covering measures of central tendency and variability. The worksheet will be submitted as an assignment.

- (25 points) Analyze a Research Article – The Week 2 Assignment will have you write an analysis of a peer reviewed research article as a learning exercise to reinforce the parts of a research article significant for both quantitative and qualitative measures and method of analysis.

- (125 points) Journal Article Summaries – In Weeks 3 to 7 you will locate 5 peer reviewed journal articles using the data base in the UNT Library. Each Journal Article will relate directly to the topic that you chose to research and write about using your district or local data. This assignment will help you prepare for your final research paper. Journal Article Summaries are worth 25 points each.

- (225 points) Online Discussions – During our course we will participate in 9 asynchronous class discussions that will provide you with the opportunity to interact with your peers and share ideas in the online discussion forums. Generally, a journal article or book chapter will provide the basis for our online discussions. The weekly discussions will be graded at 25 points per weekly discussion based on the Discussion Rubric for content and relevance.

- (25 points) Create a digital presentation of your research paper and present to the class in a discussion thread during Week 10 to receive feedback from your classmates. Upload a copy of your presentation in the assignment link for grading.
(100 Points) Research Paper. Write a 10-15 page research paper (not including references, abstract and cover sheet) in APA format that includes the following sections: Cover Page, Introduction, Literature Review, Method, Results (if applicable), Discussion and Reference Page. The paper will be based in the problem of practice you chose to focus on in class and the data that you gathered on your campus. The paper should include a theoretical framework, a review of literature, clear and concise results (including tables), and a discussion that clearly links your data to the theoretical framework. The paper will be graded on overall quality and content, as well as APA formatting. Upload a final copy of your paper for grading in the course assignment link. The paper is due on the last day of the class.

Grading

The awarding of grades is not automatic and the judgment of the instructor will determine whether or not each assignment is completed satisfactorily. Neatness, thoroughness, and care in preparing course materials are required. All required projects must be submitted when requested. Late assignments are ineligible for a grade of “A.”

Late Assignment Policy

A late assignment deduction of 10% of the possible points available for that assignment will be deducted from the points earned on any late assignment. The final grade will be based upon points earned on the following assignments.

<table>
<thead>
<tr>
<th>Assignments</th>
<th>Points</th>
<th>Grade %</th>
</tr>
</thead>
<tbody>
<tr>
<td>Descriptive Statistics Worksheet</td>
<td>25</td>
<td>5%</td>
</tr>
<tr>
<td>Analyze a Research Article</td>
<td>25</td>
<td>5%</td>
</tr>
<tr>
<td>Journal Article Summaries (5 @ 25 points each)</td>
<td>125</td>
<td>23%</td>
</tr>
<tr>
<td>Online Discussions</td>
<td>225</td>
<td>40%</td>
</tr>
<tr>

<td>Research Paper</td>
<td>100</td>
<td>18%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>550</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>

Final Grade = Percentage of sum of all assignments and exams (550 points).

\[
\begin{align*}
A &= 90\% \quad 495 - 550 \text{ points} \\
B &= 80\% \quad 440 - 494 \text{ points} \\
C &= 70\% \quad 385 - 439 \text{ points}
\end{align*}
\]

Grades below 70% will receive a grade of F for the course.

As the instructor for this course, I reserve the right to modify or make changes to the syllabus as needed during the semester. Students will be notified should changes be made to the course requirements, content, assignments, due dates, or other material relevant to the completion of this course.

Certification Exam Alignment

Texas Examination of Educator Standards (TExES) Superintendent (195) Competencies.

Competency 001
The superintendent knows how to act with integrity, fairness, and in an ethical manner in order to promote the success of all students.

Competency 002
The superintendent knows how to shape district culture by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the educational community.

Competency 003
The superintendent knows how to communicate and collaborate with families and community members, respond to diverse community interests and needs, and mobilize community resources to ensure educational success for all students.

Competency 004
The superintendent knows how to respond to and influence the larger political, social, economic, legal, and cultural context, including working with the board of trustees, to achieve the district’s educational vision.

Competency 005
The superintendent knows how to facilitate the planning and implementation of strategic plans that enhance teaching and learning; ensure alignment among curriculum, curriculum resources, and assessment; and promote the use of varied assessments to measure student performance.

Competency 006
The superintendent knows how to advocate, nurture, and sustain an instructional program and a district culture that are conducive to student learning and staff professional growth.

Competency 007
The superintendent knows how to implement a staff evaluation and development system to improve the performance of all staff members and select appropriate models for supervision and staff development.

Competency 008
The superintendent knows how to apply principles of effective leadership and management in relation to district budgeting, personnel, resource utilization, financial management, and technology use.

Competency 009
The superintendent knows how to apply principles of leadership and management to the district's physical plant and support systems to ensure a safe and effective learning environment.

Competency 010
The superintendent knows how to apply organizational, decision-making, and problem-solving skills to facilitate positive change in varied contexts.
National Policy Board for Educational Administration (NPBEA)

Standard 1. Mission, Vision, and Core Values
Effective educational leaders develop, advocate, and enact a shared mission, vision, and core values of high-quality education and academic success and well-being of each student.

Standard 2. Ethics and Professional Norms
Effective educational leaders act ethically and according to professional norms to promote each student’s academic success and well-being.

Standard 3. Equity and Cultural Responsiveness
Effective educational leaders strive for equity of educational opportunity and culturally responsive practices to promote each student’s academic success and well-being.

Standard 4. Curriculum, Instruction, and Assessment
Effective educational leaders develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote each student’s academic success and well-being.

Standard 5. Community of Care and Support for Students
Effective educational leaders cultivate an inclusive, caring, and supportive school community that promotes the academic success and well-being of each student.

Standard 6. Professional Capacity of School Personnel
Effective educational leaders develop the professional capacity and practice of school personnel to promote each student’s academic success and well-being.

Standard 7. Professional Community for Teachers and Staff
Effective educational leaders foster a professional community of teachers and other professional staff to promote each student’s academic success and well-being.

Standard 8. Meaningful Engagement of Families and Community
Effective educational leaders engage families and the community in meaningful, reciprocal, and mutually beneficial ways to promote each student’s academic success and well-being.

Effective educational leaders manage school operations and resources to promote each student’s academic success and well-being.

Standard 10. School Improvement
Effective educational leaders act as agents of continuous improvement to promote each student’s academic success and well-being.

Learner Outcomes

- Implement appropriate leadership skills, techniques, and group process skills to define roles, assign functions, delegate effectively, and determine accountability for goal attainment.
- Implement processes for gathering, analyzing, and using data for informed decision-making in a research format.
- Identify, analyze, and resolve problems using appropriate problem-solving techniques and decision-making skills.
- Use strategies that facilitate working with other groups and stakeholders such as
team building, building consensus and collaborative decision-making.

- Identify and analyze positive reform strategies for implementation in the instructional environment.
- Analyze and apply political influences to benefit the educational organization.

**UNT POLICIES**

**COURSE EVALUATION**

Toward the end of the semester, you will receive a link in your UNT Eagle Connect email for the course evaluation. You can also complete the survey at https://my.unt.edu by logging in and selecting SPOT.

**SCHOLARLY EXPECTATIONS**

All works submitted for credit must be original works created by the scholar uniquely for the class. It is considered inappropriate and unethical, particularly at the graduate level, to make duplicate submissions of a single work for credit in multiple classes, unless specifically requested by the...
instructor. Work submitted at the graduate level is expected to demonstrate higher-order thinking skills, excellent written communication skills, and significantly higher quality than work produced at the master’s degree level.

COURSE LOGIN INFORMATION

This course was developed and will be facilitated utilizing the University of North Texas’ Learning Management System, Canvas. To get started with the course, please go to https://unt.instructure.com. You will need your EUID and password to log in to the course. If you do not know your EUID or have forgotten your password, please go to: http://ams.unt.edu. The online course Start Here module includes navigational overviews and links to detailed instructions and videos on how to use the tools necessary for completing all activities. Please read that module in detail and bookmark instructions for future use.

Minimum Technical Skills Needed

Navigating all areas of the course and using Canvas tools Using the Inbox and course Discussions to communicate with classmates and instructor Creating, saving, and submitting files in DOC and PDF formats Creating videos Locating and using instructions to learn tool usage Contacting the UIT Helpdesk for support, if needed

STUDENT TECHNICAL SUPPORT SERVICES

The following information has been provided to assist you in preparation for the technological aspect of the course. • Info on using Canvas Canvas Student Guide, Video Guides, Canvas Getting Started, Canvas Basics Guide • Canvas technical requirements Computer specs https://community.canvaslms.com/docs/DOC-10701 Supported browsers https://community.canvaslms.com/docs/DOC-10720 Support Technical Emergencies and Advice for Taking Online Exams

• Avoid using a wireless connection for exams unless you’re certain of its reliability. • It could be more reliable to take exams using a supported web browser on a desktop or laptop rather than using a tablet or phone. • There is no Save button, but Canvas will auto-save periodically. • Should you encounter technical problems affecting your ability to access or complete a test, immediately contact the UIT Help desk. • If the UIT Helpdesk cannot resolve the problem, it will document the problem and provide you with a ticket number that you can provide to your instructor as verification. When staff is unavailable, Report an Issue online.

How Students Should Proceed Each Week for Class Activities

Read the Start Here section from Modules on the course menu, then continue on to the Week 1 module. All assignments, resources, and links to other areas and sites are contained within each week’s module, each of which are linked from the course menu. Students should access the Canvas
course daily for announcements and assignments required for the course.

COMMUNICATIONS

Review this information about the communication tools in the course and how we will use them: • For all course-related questions, please read this syllabus carefully before seeking assistance. • For assignment clarification questions, see the Ask Questions Here forum in Discussions from the Assignments link on the course navigation menu. • Use the Inbox feature from the course navigation menu for all private electronic communications with me. If for some reason you are unable to use course this resource, you may contact me using the contact methods available on the first page of the Syllabus. You can expect a response from me within 24-hours of sending a message. If your concern is urgent, please call by phone or leave a message. You can expect a response from your instructor within 24-hours of sending a message. If your concern is urgent, please call by phone or leave a message.

Announcements

Please check the course Announcements each day for updated information and changes. You’ll find a link to the latest announcement at the top of the course Home page. Announcements are also auto-emailed to students’ Eagle Connect address. You MUST NOT disable your Notification Preferences for Announcements or Administrative Notifications.

Collaborative Discussions

See Discussions from the Assignments link on the course menu to access the appropriate topic for assigned postings, to review the postings of classmates, and to make postings of your own. Please extend the readers of your postings the same courtesy you would expect when communicating. Please read and consider the content of the message before responding.

Assignment Policy

Due dates for each assignment are posted in the instructions of each assignment. Assignments should be submitted in Word format and submitted by using the “Submit” button at the end of each assignment.

Examination Policy

The Final Exam is open-book and open-note, however, you may not discuss the exam with another student unless after both have completed and submitted your answers. Missed quizzes or exams may not be taken at a later date without written documentation that justifies the error.

Late Work

Late work will be accepted up to one week after the due date, but a penalty of points deducted will be assessed up to ½ of the value of the assignment. Please contact the instructor whenever late submissions are anticipated.

Class Participation

All students are required to login to course multiple times each week. Instructors use the Canvas tracking features to monitor student activity. Students are also required to participate in all class activities such as discussions, conference sessions, and group projects as assigned.
Virtual Classroom Citizenship

The same guidelines that apply to traditional classes should be observed in the virtual classroom environment. Please use proper netiquette when interacting with class members and the professor.

Incompletes

The only time an instructor in our College can give an incomplete is if a student is passing the course but has a severe illness of emergency during the last third of the course. The student must submit a form requesting an incomplete and provide documentation supporting the need for an Incomplete. Students can get these forms by contacting Marilyn Deuble at marilyn.deuble@unt.edu or local students can go by our program office in office 218 in Matthews Hall.

Dropping a Class

If you see that you are falling far behind, there are dates that are required to be able to drop with a W (Withdrawn) instead of a WF (Withdrawn Failing). See the UNT registrar’s website to determine these dates. I've also provided this link to the registrar’s office in the Start Here section. You should notify your instructor, but notifying your instructor does not take care of dropping the class. Of course, we hope you do not have to drop a class, but, if you do, you need to take care of that officially through the registrar’s office or the office of the Dean of Students.

Copyright Notice

Some or all of the materials in this course may be protected by copyright. You may use the materials during the duration of the course and for assignment purposes only. When the course ends, you are required to remove all copyrighted materials from your possession. See the Copyright Guide for details.

Student Conduct and Discipline

See this section of the Student Handbook.

Sexual Discrimination, Harassment, and Assault

UNT is committed to providing an environment free of all forms of discrimination and sexual harassment, including sexual assault, domestic violence, dating violence, and stalking. If you (or someone you know) has experienced or experiences any of these acts of aggression, please know that you are not alone. The federal Title IX law makes it clear that violence and harassment based on sex and gender are Civil Rights offenses. UNT has staff members trained to support you in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, helping with legal protective orders, and more. UNT’s Dean of Students’ website offers a range of on-campus and off-campus resources to help support survivors, depending on their unique needs: http://deanofstudents.unt.edu/resources_0. Renee LeClaire McNamara is UNT’s Student Advocate and she can be reached through e-mail at SurvivorAdvocate@unt.edu or by calling the Dean of Students’ office at 940-565-2648. You are not alone. We are here to help.

Academic Honesty Policy

Academic dishonesty is defined in the UNT Policy on Student Standards for Academic Integrity. Any suspected case of Academic Dishonesty will be handled in accordance with University policy and procedures. Possible academic penalties range from a verbal or written admonition to a grade of “F” in the course. Further sanctions may apply to incidents involving major violations. You will find the policy and procedures at https://policy.unt.edu/policy/06-003.
Cheating and Plagiarism Policy

The UNT Code of Student Conduct and Discipline provides penalties for misconduct by students, including academic dishonesty. Academic dishonesty includes cheating and plagiarism. The term “cheating” includes, but is not limited to, (1) use of any unauthorized assistance in taking quizzes, tests, or examinations; (2) dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; and (3) the acquisition, without permission, of tests or academic material belonging to a faculty or staff member of the university. The term “plagiarism” includes, but is not limited to, the use of the published or unpublished work of another person, by paraphrase or direct quotation, without full and clear acknowledgement. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials. If a student engages in academic dishonesty, the student will receive a failing grade on the test or assignment and a failing grade in the course. In addition, the case will be referred to the Dean of Students for appropriate disciplinary action.

Ethical Behavior and Code of Ethics

The Teacher Education and Administration Department expects that its students will abide by the Code of Ethics and Standard Practices for Texas Educators (Chapter 247 of the Texas Administrative Code) and as outlined in Domain IV: Fulfilling Professional Roles and Responsibilities of the Pedagogy and Professional Responsibilities (PPR) Texas Examination of Educator Standards (TExES); and as also addressed in codes of ethics adopted by professionals in the education field such as the National Education Association (NEA) and the American Federation of Teachers (AFT).

Student Behavior in the Classroom

Student behavior that interferes with an instructor’s ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Center for Student Rights and Responsibilities to consider whether the student's conduct violated the Code of Student Conduct. The university's expectations for student conduct apply to all instructional forums, including university and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at www.unt.edu/csrr.

ADA Accommodation Statement

The University of North Texas does not discriminate on the basis of disability in admission, treatment, or access to its programs or activities, nor in employment in its programs or activities. The University is committed to providing equal educational access for qualified students with disabilities in accordance with state and federal laws, including the Americans with Disabilities Act of 1990 as Amended, and Section 504 of the Rehabilitation Act of 1973. In addition, the University is committed to making all programs and activities sponsored by UNT accessible, as required by the Texas Accessibility Standards and the Americans with Disabilities Act Accessibility Guidelines. To this end, all academic units are willing to make reasonable and appropriate adjustments to the classroom environment and the teaching, testing, or learning methodologies in order to facilitate equality of educational access for persons with disabilities. The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. Students are strongly
encouraged to deliver letters of accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. Please note that disability accommodations are not retroactive. Accommodations will be made only after a disability is officially verified. Information on the services provided by the ODA, as well as application procedures, is available at http://www.unt.edu/oda/index.html. You may also contact them by phone at 940.565.4323. Information on UNT’s policies related to disability accommodations is available at http://policy.unt.edu/policy/18-1-14.

**Important Notice for F-1 Students taking Distance Education Courses**

Federal Regulation To read detailed Immigration and Customs Enforcement regulations for F-1 students taking online courses, please go to the Electronic Code of Federal Regulations website at http://www.ecfr.gov/. The specific portion concerning distance education courses is located at Title 8 CFR 214.2 Paragraph (f) (6) (i) (G). The paragraph reads: (G) For F–1 students enrolled in classes for credit or classroom hours, no more than the equivalent of one class or three credits per session, term, semester, trimester, or quarter may be counted toward the full course of study requirement if the class is taken on-line or through distance education and does not require the student's physical attendance for classes, examination or other purposes integral to completion of the class. An on-line or distance education course is a course that is offered principally through the use of television, audio, or computer transmission including open broadcast, closed circuit, cable, microwave, or satellite, audio conferencing, or computer conferencing. If the F–1 student’s course of study is in a language study program, no on-line or distance education classes may be considered to count toward a student’s full course of study requirement. University of North Texas Compliance To comply with immigration regulations, an F–1 visa holder within the United States may need to engage in an on-campus experiential component for this course. This component (which must be approved in advance by the instructor) can include activities such as taking an on-campus exam, participating in an on-campus lecture or lab activity, or other on-campus experience integral to the completion of this course. If such an on-campus activity is required, it is the student’s responsibility to do the following: (1) Submit a written request to the instructor for an on-campus experiential component within one week of the start of the course. (2) Ensure that the activity on campus takes place and the instructor documents it in writing with a notice sent to the International Student and Scholar Services Office. ISSS has a form available that you may use for this purpose. Because the decision may have serious immigration consequences, if an F-1 student is unsure about his or her need to participate in an on-campus experiential component for this course, s/he should contact the UNT International Student and Scholar Services Office (telephone 940-565-2195 or email internationaladvising@unt.edu) to get clarification before the one-week deadline.

**Syllabus Change**

Policy Changes to the syllabus may be necessary at times. Communication of any changes will be made via a course announcement and email.

**Six Student Success Messages**

The Department of Teacher Education & Administration supports the six student success messages on how to succeed at UNT: (1) Show up; (2) Find support; (3) Get advised; (4) Be prepared; (5) Get involved; and (6) Stay focused. Students are encouraged to access the following website: https://success.unt.edu. The site contains multiple student resource links and short videos with student messages.

**Observation of Religious Holidays**

If you plan to observe a religious holy day that coincides with a class day, please notify your instructor.
The Educator as Agent of Engaged Learning

Improving the quality of education in Texas schools and elsewhere is the goal of programs for the education of educators at the University of North Texas. To achieve this goal, programs leading to teacher and administrator certification and advanced programs for educators at the University of North Texas 1) emphasize content, curricular, and pedagogical knowledge acquired through research and informed practice of the academic disciplines, 2) incorporate the Texas Teacher Proficiencies for learner centered education, 3) feature collaboration across the university and with schools and other agencies in the design and delivery of programs, and 4) respond to the rapid demographic, social, and technological change in the United States and the world.

The educator as agent of engaged learning summarizes the conceptual framework for UNT's basic and advanced programs. This phrase reflects the directed action that arises from simultaneous commitment to academic knowledge bases and to learner centered practice. "Engaged learning" signifies the deep interaction with worthwhile and appropriate content that occurs for each student in the classrooms of caring and competent educators. "Engaged learning" features the ongoing interchange between teacher and student about knowledge and between school and community about what is worth knowing. This conceptual framework recognizes the relationship between UNT and the larger community in promoting the commitment of a diverse citizenry to life-long learning. In our work of developing educators as agents of engaged learning, we value the contributions of professional development schools and other partners and seek collaborations which advance active, meaningful, and continuous learning.

Seeing the engaged learner at the heart of a community that includes educators in various roles, we have chosen to describe each program of educator preparation at UNT with reference to the following key concepts, which are briefly defined below.

- **Content and curricular knowledge** refer to the grounding of the educator in content knowledge and knowledge construction and in making meaningful to learners the content of the PreK-16 curriculum.
- **Knowledge of teaching and assessment** refers to the ability of the educator to plan, implement, and assess instruction in ways that consistently engage learners or, in advanced programs, to provide leadership for development of programs that promote engagement of learners.
- **Promotion of equity for all learners** refers to the skills and attitudes that enable the educator to advocate for all students within the framework of the school program.
- **Encouragement of diversity** refers to the ability of the educator to appreciate and affirm formally and informally the various cultural heritages, unique endowments, learning styles, interests, and needs of learners.
- **Professional communication** refers to effective interpersonal and professional oral and written communication that includes appropriate applications of information technology.
- **Engaged professional learning** refers to the educator’s commitment to ethical practice and to continued learning and professional development.

Through the experiences required in each UNT program of study, we expect that basic and advanced students will acquire the knowledge, skills, and dispositions appropriate to the educational role for which they are preparing or in which they are developing expertise.

A broad community stands behind and accepts responsibility for every engaged learner. UNT supports the work of PreK-16 communities through basic and advanced programs for professional educators and by promoting public understanding of issues in education.
