EENG 4920: Fall 2014
Cooperative Education in Electrical Engineering

INSTRUCTORS
Shengli Fu, Office: DP B-233, Phone: 940-891-6942

CLASS MEETINGS
TBD

OFFICE HOURS
TBD

COURSE DESCRIPTION
Supervised field work in a job directly related to the students’ major field of study or career objective.

TEXTBOOKS
None.

PREREQUISITES
Junior- or senior-level standing in electrical engineering. May be repeated for credit.

COURSE OBJECTIVES
• To obtain industrial experience related to electrical engineering while completing the requirements for the degree;
• To connect what you are studying in school to your work by applying what you learn in school to what you do at work;
• To develop job opportunities for after graduation by providing useful employer contacts, by testing employment choices as an undergraduate, and by gaining marketable experience.

GRADING POLICIES (TENTATIVE)
The grade is based on the final report at the end of the semester. The report will summarize industrial experience gained through the co-op.
