CLASS MEETINGS
N/A; field work only.

OFFICE HOURS
You may request an appointment by email.

COURSE DESCRIPTION
Supervised field work in a job directly related to the students’ major field of study or career objective.

TEXTBOOKS
None.

PREREQUISITES
Junior- or senior-level standing in electrical engineering. May be repeated for credit.

COURSE OBJECTIVES
• To obtain industrial experience related to electrical engineering while completing the requirements for the degree;
• To connect what you are studying in school to your work by applying what you learn in school to what you do at work;
• To develop job opportunities for after graduation by providing useful employer contacts, by testing employment choices as an undergraduate, and by gaining marketable experience.

GRADING POLICIES
• Grading is based on the final report that needs to be submitted at the end of the semester. The report is required to describe in details what you have worked on in this field work, what you have learned, how the work is related to your field of study and career objective, and other aspects of the field work that you think are important to the timely completion of your degree program and to your long-term career development.
